SAVING TIME, ENERGY & MONEY!

SAVING TIME, ENERGY AND MONEY!

The Evo Switch is the perfect companion for your Evo Pool heat pump. Why buy an Evo Switch? It's simple - to save on operating costs and deliver a more uniformed heat throughout the pool! It's incredibly expensive to buy and run both a filter pump and heater pump. But now there is a better solution! The Evo Switch allows your Evo heat pump to turn the main water pump on outside of your filtration times, **SAVING YOU TIME, ENERGY & MONEY!**

Simple to install and easy to use, the Evo Switch makes complete sense.

SIT BACK, RELAX & ENJOY YOUR HEATED POOL

BENEFITS

- » Simple to install
- » Easy to use
- » Save money on running costs
- » Set and forget

SLAVE MODE

SEPARATE SYSTEM

X The heater may need to run up to 18+hrs a day in winter. The chlorinator will need to be adjusted to allow the pump to run longer, causing water chemical balance issues. You will need to constantly monitor and adjust the chlorinator output to keep it at the required level.

X Need to purchase an extra water pump at up to \$800+
X Electrical use from pump can cost up to \$1,000 per year
X A less uniform heat spread throughout the pool

RELAX IN YOUR POOL WHILE MAXIMISING THE SAVINGS!

Note: Make sure you allow power requirements for the water pump that is on the same circuit as the heat pump.

EVO SWITCH WARRANTY

For further peace of mind the EVO Switch comes with a 1 year warranty.
