EXPERIENCE THE FREEDOM  
OF A SELF-CLEANING POOL

## A SYSTEM OF EXCEPTIONAL PRODUCTS

### 1 AUTOMATIC WATER VALVE CONTROL SYSTEM

**PV3** Automatic Water Valve functions as the hydraulic brain of the system, directing a powerful flow of water to each set of cleaning nozzles and is 100% pressure safe.

### 2 ROTATING POP-UP NOZZLES SWEEP POOL DEBRIS

**PV3** weighted, ratcheting, rotating cleaning nozzles sweep debris off pool floors, steps and benches towards and into the optional debris removing **MDX-R3** debris drain and skimmer.

### 3 MDX-R3 DRAIN REMOVES POOL DEBRIS

The optional **MDX-R3** debris drain effectively removes large debris from the pool and into the containment canister. The **SDX** offers an additional layer of anti-entrapment protection and handles additional suction requirements.

### 4 LARGE CAPACITY DEBRIS CANISTERS

Build your pool with the optional **Equipment Side (EDC)** or **Deck Side (DDC)** debris containment canister to collect large debris before it reaches the pump basket, reducing stress and keeping the pump running efficiently.

### 5 VENTURI SKIMMER COLLECTS SURFACE DEBRIS

The optional eco-friendly **Venturi Skimmer** features enhanced surface skimming even at low pump speeds, a large capacity basket and increases debris removal at the **MDX-R3** floor drain.

### 6 SWINGJETS ENHANCE CLEANING & CIRCULATION

Optional **SwingJet** ratcheting wall returns sequentially rotate in a 90° arc for enhanced cleaning and circulation from top to bottom.

Watch PV3 in action at [1paramount.com/products/pv3](http://1paramount.com/products/pv3)

\*Warning: MDX-R3 and SDX must be installed in accordance with Paramount's written instruction manual in conformity with applicable federal, state, local and swimming pool industry building and safety codes.

# LET YOUR POOL CLEAN ITSELF

When it comes to spending your free time there are more important things to do than tending to your swimming pool.

## Always Swim Ready

Thanks to the patented PV3, the automatic in-floor pool cleaning and circulation system, your pool can be built to clean itself while you relax. Built directly into the pool floor, PV3 is engineered to clean your entire pool, including walls, floors, steps, benches, and even spas. When not operating, PV3 nozzles retract flush with the pool floor, becoming virtually invisible. There are no vacuum hoses left floating in the pool, or mechanical devices to be removed. All that's left is a sparkling clean pool that's ready to enjoy.

## Guaranteed Clean & Carefree

PV3 is custom designed for your unique pool shape, and is so effective that it will clean 99% of your entire pool, guaranteed, with minimal maintenance required. In-floor cleaners are considered the most technologically advanced pool cleaners available, and are built to last for the life of your pool. That's why PV3 comes with a lifetime limited warranty on all cleaning nozzles. It's just one more way PV3 gives you peace of mind and a low maintenance pool.

- **99% pool cleaning guaranteed\*, including steps, benches, spas and water features**
- **Infinite-position nozzles for maximum cleaning range**
- **No routine maintenance**
- **No unsightly cleaner to remove from the pool**
- **Enhanced circulation at lower energy saving pump speeds**

\*99% Clean Guarantee: Pool design, elements or features that prohibit placement of system components will not be considered part of the 99% cleaning guarantee. See cleaning certificate for complete details.

Clean & Virtually Unseen

A woman is floating on her back on a large, yellow,充气环 (inflatable ring) in a swimming pool. She is wearing red sunglasses, a blue and white striped tank top, and red, white, and blue striped shorts. The water is clear and blue, with sunlight reflecting off the surface. The background shows the edge of the pool.

MORE TIME DOING  
WHAT YOU LOVE

# ENJOY CLEANER, HEALTHIER WATER

## An Advanced Cleaning & Circulation System

In pools without a PV3 in-floor system, water circulates near the pool surface, where chemicals and heat are quickly lost into the atmosphere. This often leads to wasted chemicals, wasted heat energy and several poorly circulated and algae-prone areas throughout your pool. PV3 improves circulation with strategically placed cleaning nozzles in the pool floor, steps and benches that evenly circulate water throughout your pool. This improved circulation has been proven by independent studies to create cleaner, healthier, and more comfortable pool water, while reducing the loss of chemicals and heating energy into the atmosphere. This means PV3 will save you money while it cleans your pool.

Pool without PV3 in-floor system is poorly circulated, resulting in chemical and heat energy loss, as well as algae-prone areas

## BENEFITS OF A WELL-CIRCULATED PV3 POOL

- Complete circulation of water and chemicals throughout the pool
- No poorly circulated or algae-prone areas
- Eliminates cold spots for more comfortable swimming
- Extends the swim season
- Saves on chemical and heating costs for the life of the pool
- Better for the environment

# THE TECHNOLOGY BEHIND RELAXATION

## Powerful Cleaning Cycle

PV3 uses rotating cleaning nozzles placed strategically in your pool floor, steps and benches. These nozzles work together to systematically sweep debris out of your pool through the main drain and skimmer. After about an hour, nearly every square inch of your pool will have been swept one time. After only a few hours, your pool will be cleaned, and PV3 will disappear back into the pool floor. Now all that's left to do is relax and enjoy a clean, well circulated pool.

## Efficient & Economical

A key benefit of PV3's water-powered hydraulic valve is its increased performance over traditional mechanical valves. Built for both single speed and multi-speed pumps, PV3 uses less energy and operates with more power each and every cleaning cycle. It provides enhanced circulation at even the lowest pump speeds, giving PV3 unsurpassed performance among agitation style in-floor cleaning systems.

- PV3 uses infinite position nozzles to clean a full 360°, without creating a star pattern on your pool floor
- Nozzles have no moving parts and come with our Lifetime Limited Warranty
- Nozzles retract flush with the pool floor and are virtually invisible when not in use
- Available in 6 colors
