

QUANTUM

WN SERIES

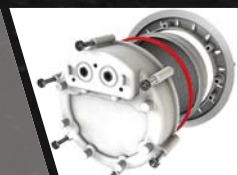

A QUANTUM SHIFT / IN LED LIGHTING

QUANTUM

WN SERIES

SPA ELECTRICS is Australia's market leader in the design and manufacture of underwater lighting. Our Quantum WN Series is the culmination of over 35 years experience & expert knowledge.

Discover for yourself why the Quantum WN Series is the premium choice of pool building professionals.

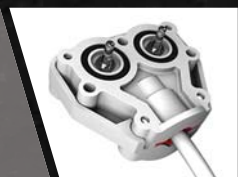

DURABILITY

Engineered for reliability and durability, the Quantum WN Series LED utilises high impact and chemical resistant materials.

SUPERIOR BRIGHTNESS

Available in single and multi-colour models, this high output LED provides superior light distribution and seamless colour transitions.

DIRECT CONNECT

Patented detachable cable connection provides a safe and robust electrical connection that eliminates the most common cause of water entry.

ADVANCED COOLING

This vented design utilises convection to draw cool water in behind the light to the external heat sink to ensure maximum cooling and efficiency.

ALL NEW MULTIPLUS

The All New Multi-Plus model from Spa Electrics allows for seamless integration with Pentair & Zodiac pool control systems.

Operate your lights using the pool controller remote and select your favourite colour or light show with just the touch of a button. Or create your own favourite colour with over 256 colours to choose from.

The Multi-Plus range is available exclusively for the Quantum WN9 & Retro WN Series and is for use with the following control systems;

PENTAIR

EasyTouch®

Intellitouch®

ZODIAC

AquaLink® TRI®

AquaLink® RS One Touch®
(REV R - current)

For more information on the Multi-Plus range or to find out if it is suitable for your Pool Control system, contact Spa Electrics or speak with your pool care professional.

EASYTOUCH® & INTELLITOUCH® are registered trademarks of Pentair Water Pool and Spa, Inc. AQUALINK® is a registered trademark of Zodiac International S.A.S.U.
