- ADJUSTABLE 3-STEP 90 DEGREE CLEANING ARC
- ONLY WALL RETURN WITH RATCHETING SWEEP TECHNOLOGY
- PATENTED AUTOMATIC REVERSING MECHANISM
- FOR CONCRETE, VINYL & FIBERGLASS POOLS
- IMPROVES OVERALL CIRCULATION & HEATING

SWEEP AWAY YOUR POOL CARE & JUST RELAX

PARAMOUNT POOL AND SPA SYSTEMS, THE WORLD'S LEADER IN IN-FLOOR POOL CLEANING SYSTEMS, CONTINUES ITS COMMITMENT TO POOL CLEANING AND ENHANCED WATER CIRCULATION WITH ANOTHER PATENTED PRODUCT – SWINGJET. DESIGNED TO FIT INTO MOST 1 1/2" THREADED WALL RETURNS, SWINGJET DELIVERS AN INFINITELY ADJUSTABLE 3-STEP 90 DEGREE CLEANING ARC WITH AN INNOVATIVE AUTOMATIC REVERSING MECHANISM.

HOW SWINGJETS 90° CLEANING ARC WORKS:

Hydraulically-engineered Swingjets are placed as wall returns. When activated the Swingjets pop out to deliver a high-pressure stream of water.

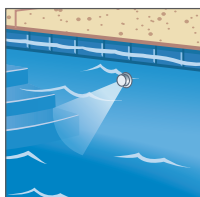

When not operating the Swingjets retract and then rotate to a new position upon the next activation.

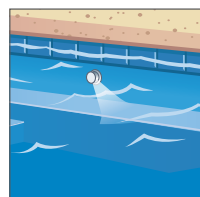

Swingjets can be aimed to focus the 90 degree cleaning arc to target steps, benches and hard to reach places.

SWINGJET PLACEMENT:

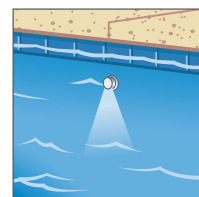

NEXT TO STEPS

Swingjets can be placed near steps and aimed to enhance debris removal from hard to reach places

NEAR BENCHES

Swingjets can be placed above benches and used to sweep away debris that has collected.

ON WALLS

Additionally, Swingjets can be installed along walls where they can both clean the wall and help sweep debris towards the main drain.
