

AQUAMATE X

Aquamate X is the ultimate modular control system for all your pool and spa requirements. It is a true plug and play design, customisable and expandable with Aquamate X+

In-built Wi-Fi allows seamless integration with your router, allowing complete control in the palm of your hand when you download the Aquatek app on your smartphone or tablet.

In this age of technology everything is at our fingertips, and enjoying your swimming pool and spa should be no different.

Imagine being able to turn that spa on before you leave the office... or putting on a coloured light show to bring your pool to life... or having complete control of pool function from wherever you are!

Simplify your pool life
with the **AQUAMATE X** control system
from Pool-Water Products

AQUAMATE X
